BREAKAWAY COMPLETE RESEARCH REPORT - AMENDED

Breakaway Research recently completed a research report on Tungsten Mining NL (“the Company”). The research report was commissioned by the Company. To view a copy of the report, please visit our website at www.tungstenmining.com

Breakaway Research is an independent research company. It is a member of Breakaway Investment Group - an Australian financial services company that specialises in the resource sector providing funds management, equity research and corporate advisory services.

About Tungsten Mining

Tungsten Mining NL was admitted to ASX on 13 December, 2012. The Company is focused on development and exploitation of tungsten deposits. The management of the company has previous experience in tungsten mine development and operations. Due to the Chinese position on export restrictions, and to the strong global demand for tungsten, particularly in the developing countries, the fundamentals of the tungsten market remain strong, and Tungsten Mining, with its experienced management and high quality assets in good mining jurisdictions, believes it is very well positioned to become a significant supplier of tungsten in a short time frame.
