## TUNGSTEN MINING COMMENCES DRILLING AT THE KILBA TUNGSTEN PROJECT

Tungsten Mining NL (ASX:TGN) (“the Company”) is pleased to announce the commencement of drilling on 10 August 2014 at its Kilba project on Mining Lease ML08/0314 in the Gascoyne region of Western Australia. Tungsten Mining NL holds 100% entitlement to the Mining Lease ML08/0314.

In May 2013, the Company released its Maiden JORC 2012 Mineral Resource Estimate at Zone 11 and Zone 8 of the Kilba project, comprising an Indicated Resource of 1.3 million tonnes at 0.30% WO<sub>3</sub> and an Inferred Mineral Resource of 3.7 million tonnes at 0.26% WO<sub>3</sub> for a total of 5.0 Million tonnes at 0.27% WO<sub>3</sub> (ASX announcement; 31 May 2013). The Company is now planning to increase the confidence level of key areas of the Kilba Mineral Resource prior to moving onto the Feasibility Study stage.

This involves the drilling of 40 reverse circulation (RC) holes to infill sections to a 40 metre spacing for high-grade zones of the Mineral Resource. An additional eight RC holes are planned to target tungsten mineralisation at Zone 12 identified by Ultra Violet night lamping.

Assay results are expected to be available in the next 4 – 6 weeks and further updates will be provided as results are to hand.

The Company also plans to commence detailed geological mapping and surface sampling of other tungsten targets at the Kilba and Loves Find projects during August.

– ENDS –

**Competent Person’s Statement**

*The information in this report that relates to Exploration Targets and Exploration Results is based on, and fairly represents, information and supporting documentation prepared by Peter Bleakley, who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Bleakley is not a full-time employee of the company. Mr Bleakley is a consultant to the mining industry. Mr Bleakley has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the ‘Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves’. Mr Bleakley consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.*

**About Tungsten Mining**

*Tungsten Mining NL was admitted to ASX on 13 December, 2012. The Company is focused on development and exploitation of tungsten deposits. The management of the company has previous experience in tungsten mine development and operations. Due to the Chinese position on export restrictions, and to the strong global demand for tungsten, particularly in the developing countries, the fundamentals of the tungsten market remain strong, and Tungsten Mining, with its experienced management and high quality assets in good mining jurisdictions, believes it is very well positioned to become a significant supplier of tungsten in a short time frame.*
