Quarterly Activities Report

For the Quarter Ending 31 December 2012

31 January 2013

Highlights

- Completion of project acquisitions as part of the IPO
- Successful IPO and listing on the ASX
- Completion of flora and fauna studies at the Kilba Project
- Commencement of exploration drilling at the Kilba Project.

Tungsten Mining NL (ASX: TGN) ("Tungsten Mining" or the "Company") successfully listed on the ASX on 13 December 2012, with quotation occurring on 17 December 2012, having raised \$5.1m in the Initial Public Offering (IPO). Throughout the quarter, the Company focused on completing the IPO and becoming admitted to the ASX, including completing the acquisitions forming part of the IPO asset portfolio. Having now successfully listed, the Company is focussed on the operational objectives as set out in the Prospectus to the IPO.

Project Update

Kilba Project

Environmental

a) Flora

A combined Level 1 flora and vegetation assessment and targeted flora survey was carried out by Maia Environmental Consultancy (Maia) during August, 2012. The study was carried out at TGN's Kilba Project Area, primarily on mining lease M08/314 and also over small areas on tenement E08/2139 and E08/1410. The assessment was also carried out along an existing track starting at the junction of the closest north-south main track and leading to the western end of M08/314.

b) Fauna

A Level 1 Terrestrial Vertebrate Fauna Level 1 assessment of the Kilba Well Prospect was carried out by BIOSTAT Pty Ltd in September, 2012.

For personal use only

The goals of the Level 1 assessment were to:

- collate an inventory of the vertebrate fauna species recorded during the site Level 1 assessment;
- list those species not recorded but considered to be likely to occur based on habitat preferences and geographical distribution;
- undertake a Level 1 assessment of the significance of the fauna habitats that occur within the study area;
- map fauna habitats for a 60m corridor along the length of the access track;
- undertake an assessment of the potential for rare, threatened or vulnerable species to occur;
- make recommendations for vertebrate fauna management and/or further work to undertake impact assessment; and
- provide a comprehensive report suitable for integration with the landform, soils, flora and vegetation study documents.

Exploration

High-resolution aerial photography accurate to 10cm was commissioned to cover the area of for Mining Lease ML 08\0314. SJS Resource Management Pty Ltd was engaged to digitise an existing data set from exploration carried out in the 1980s and, using the results, to plan an initial further core drilling program aimed at achieving a resource estimate compliant with JORC reporting standards for the tungsten occurrences in one zone of the deposit known as Zone 11.

During the December quarter Tungsten Mining commenced a diamond drill programme at Kilba on Mining Lease ML08\0314, and as at period-end had completed eight holes for a total of 825.6 metres. The drilling represented the first part of phased programme focussed on the rapid evaluation and potential development of the Kilba project.

The objective of the programme was to twin selected holes drilled in the period of 1975 to 1981 by Union Carbide Corporation and to confirm the presence of high-grade tungsten mineralisation. Geological logging of drill core identified coarse grained scheelite associated with multiple skarn and calc-silicate units at Zone 11. Final results from this drilling are awaited.

After the end of the period, in early January, Tungsten Mining commenced Phase II drilling, consisting of pattern reverse circulation and diamond drilling of tungsten mineralisation at Zone 11. This drilling is designed to define the tonnage potential and tenure of tungsten mineralisation present at Zone 11.

Other Projects

During the quarter, the Company completed the acquisition of assets as part of the IPO, including;

- the Gasgoyne assets, issuing SM3-W Pty Ltd (SM3-W) 4 million shares and \$200,000 to acquire the share capital of SM3-W,
- the Mosquito creek Tungsten Rights, issuing Northern Mineral Ltd 4 million shares and \$100,000 in consideration,
- the Lake Seabrook information, issuing Magnetic Resources NL 500,000 shares in consideration, and;
- the Koolyanobbing Tungsten Data, issuing Emu Nickel NL 500,000 shares in consideration.

Corporate

Tungsten Mining was admitted to the official list of the ASX on December 13th 2012 and commenced quotation on 17 December 2012, following the successful raising of \$5.1m at 20 cents in the IPO. Shares closed at 20.5 cents on 31 December 2012. At 31st December 2012, the Company had cash available of \$4.3 million.

Subsequent to quarter end, non-executive director, Charlton William (Bill) Kable, aged 62, died due to accidental drowning on the NSW Central Coast. The Company would like to reiterate their condolences to Bill's friends and family, and note the significant impact Bill had on the mining industry as a whole, and on the development of Tungsten Mining to an ASX listed entity.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
