

ASX Announcement

NON RENOUNCEABLE ENTITLEMENT ISSUE

Emerging Australian tungsten development company, Tungsten Mining NL (ASX:TGN) (“**Tungsten Mining**” or “the **Company**”), is pleased to announce that it will be offering eligible shareholders the opportunity to acquire additional fully paid Ordinary shares in the capital of the Company through a 1-for-3 non-renounceable Entitlement Issue at 10 cents per share, to raise up to approximately \$13.5 million (“the Offer”).

Background information and information about the use of proceeds from the Offer

Tungsten Mining has made substantial progress in the proposed development of the Mt Mulgine Tungsten Project. As outlined in the 2017 Annual Report, the past financial year has seen development activities continue apace, with drilling and metallurgical test work programs successfully completed. In addition your Company has substantially advanced mining studies, environmental surveys and referrals, research and development on oxide material and a range of other technical and commercial activities.

Recently the Company announced that the major environmental referrals for the project have been successfully navigated. In late July it was confidence in the project and prospects for a continued improvement in the tungsten market that prompted the Company to contract to purchase from Pilbara Minerals Limited the near new modular heavy mineral processing plant. Completion of this purchase occurred last week.

The decision to purchase the modular processing plant has allowed the Company to accelerate project development activities at a time when prices have dramatically improved, whilst materially reducing the capital expenditure required to commence production. Significantly, tungsten prices have substantially improved in recent months and based on prices last week, had improved by over 60% compared with a year ago.

Funds raised by the Offer will be used to complete pilot plant test work, geotechnical and sterilisation drilling, detailed engineering and other components of the definitive feasibility study for the Mt Mulgine Tungsten Project. It is anticipated that funds will also be used to secure and meet milestone payments on long lead items and other items of equipment, undertake preliminary earthworks and mining activities (upon receipt of all operating licenses and permits) and for general working capital.

Eligible Shareholders

Shareholders with registered addresses in Australia, New Zealand, Malaysia, Hong Kong or Singapore who hold Ordinary shares in the Company (Existing Shares) as at 5.00pm AWST on 16 October 2017 (Eligible Shareholders) will be entitled to participate in the Offer.

All Eligible Shareholders will be offered 1 new Ordinary share in the Company (New Share) for every 3 Existing Shares held by the Eligible Shareholder, at an issue price of \$0.10 per New Share.

The Company will give existing shareholders the opportunity to apply for additional shares over and above their entitlements, details of which will be set out in the Prospectus.
