Condensed notes to the financial statements

NOTE 1: BASIS OF PREPARATION OF THE HALF-YEARLY FINANCIAL REPORT

The consolidated financial report is a general purpose condensed financial report for the half-year ended 31 December 2020, which has been prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001 and this financial report was authorised for issue in accordance with a resolution of the directors on 4th March 2021.

It is recommended that the half-year consolidated financial statements be read in conjunction with the annual financial report for the year ended 30 June 2020 and considered with any public announcements made by Tungsten Mining NL during and subsequent to the half-year ended 31 December 2020 in accordance with continuous disclosure obligations of the *ASX Listing Rules*.

The half-year consolidated financial statements do not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full and understanding of the financial performance, financial position and financing and investing activities of the Group as the full financial report.

The half-year consolidated financial statements have been prepared on the basis of accrual accounting and historical costs.

Changes in accounting standards

The Group has considered the implications of new and amended Accounting Standards effective for annual reporting periods beginning on or after 1 July 2020 but determined that their application to the financial statements is either not relevant or not material.

NOTE 2: SEGMENT REPORTING

The Group has based its operating segments on the internal reports that are reviewed and used by the executive management team in assessing performance and in determining the allocation of resources.

The Group currently does not have production and is only involved in exploration. As a consequence, activities in the operating segment are identified by management based on the manner in which resources are allocated, the nature of the resources provided and the identity of the manager and country of expenditure. Information is reviewed on a whole of entity basis.

Based on these criteria the Group has only one operating segment, being exploration, and the segment operations and results are reported internally based on the accounting policies as described in the annual financial report for the year ended 30 June 2020 on a whole of entity basis.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Tungsten Mining NL does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2020 and of its performance for the half-year ended on that date; and

Independent auditor's review report

Stantons International

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
